

FridgeWize, Inc. Comes Home With The GOLD

Kansas City Company Wins Global Recognition Against Energy Giants

October 6, 2016, Kansas City, MO -- Newly headquartered in Kansas City, Missouri, FridgeWize Inc. brings home the gold, winning the prestigious RAC Cooling Industry Award against world renowned renewable energy giants including Honeywell, among others. This worldwide award is delivered for products that are leading in innovative environmental successes.

Last week, [FridgeWize](#) - the leading provider of energy-efficient commercial heating and cooling solutions - received the Innovation of the Year Award by [RAC Cooling Industry Awards](#). Delivered in London, England, where the key industry players came together, the event was a celebration of the industry's significant achievements.

CEO Ryan Grobler stated, "The award is the culmination of huge efforts by the FridgeWize team. We were up against some of the world's largest companies. We are very proud to accept this award on their behalf and look forward to continued renewable advancements in the future".

FridgeWize, founded in Carbondale, Colorado in 2010, has grown to be a multi-million dollar energy efficiency company focused on the most efficient carbon fiber fan blades in the industry including the revolutionary Q Blade. Praised by the judges for "innovation in design, innovation in concept, and innovation in material," FridgeWize continues a tradition of cutting edge technology headed by the recognized leading technical experts in the industry.

Juan Grobler, Senior Vice President of Sales and Marketing, along with his team will continue to be centered in Carbondale, Colorado. Juan said after the award announcement, "We look forward to continue delivering huge savings by reducing the carbon footprint for our customers. We will continue to advance the rapid growth of our business in convenience stores, restaurants, hotels, and large retail companies. Our new initiatives include testing of our fan blades in the oil and gas industry, as well as large office complexes."

FridgeWize has been recognized for its advancements in energy savings in the past, as the proud recipient of Environmental Leader's Top Product of the Year in 2015 and as a finalist at the 2015 Platts Global Energy Awards for Commercial Application of the Year. The company is also a finalist in the upcoming [Energy Awards](#).
